**DETAILED ACTION**

***Election/Restrictions***

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

- I. Claims 10-14 drawn to an apparatus (A navigation apparatus).
  - II. Claims 15-17 drawn to a process (A navigation method).
  - III. Claims 28-37 drawn to process (A method for navigation a route using plural modes of transportation).
2. The inventions listed as groups I, II and III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The groups listed above are not within the permitted combination of different categories of inventions. That is one apparatus and one process. As set forth in the form PCT/ISA/210, there is no special technical feature that defines a contribution over the prior arts (see EP 1300275, EP 0991045, US 6021375 and EP 1057159).

**Upon electing Group I, II or III Applicant is required to elect one species from each on the groups below:**

Species 1: the voice guidance is not provided when the public transportation system is not used.

Species 2: the voice guidance is not provided when the public transportation system is used.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
